

FLEXISEQ[®]

Product Name: Flexiseq

Everyday Relief

When joint pain and stiffness hold you back from doing the things you love, Flexiseq's unique drug-free action works only where it's needed to lubricate joints affected by osteoarthritis and joint wear and tear.

Get your movement back. Let's Get Moving.

- Clinically proven to reduce pain & stiffness and improve joint movement.
- Drug free and can be used alongside traditional pain medications.
- Free from systemic side effects associated with painkillers.
- Just twice daily application and no restrictions on the length of use.
- Proven to help with the everyday effects of joint wear and tear.
- Available in two strength formulations to suit the needs of all joint pain sufferers.

“My pain and stiffness from osteoarthritis in hip and knee relieved within a few days. An incredible advancement in the battle to improve quality of life for sufferers” **Maurice K. Adams**

SEQ Technology is the revolutionary driving-force powering Flexiseq Using Seq Technology, Flexiseq delivers key ingredients to where they need to go. Every tube of Flexiseq is packed with microscopic droplets called Sequessome[®] vesicles. These vesicles have the optimal characteristics for the lubrication of joint cartilage – size, compressibility and hydration
